### FRAILTY OF MAN.

BY A. S. WILTSE.

Man, thou art frail. Thy greatest length of days
Seems but a dream, a transitory blaze.
Thy life is like the Borealis bright,
That flits a moment, then dissolves from sight.
O, Feeble Worm! O, Given to Decay!
Thy life, like frostwork, soon must pass away.
Proud as thou art, thou soon must yield thy breath,
And fall beneath the icy hand of Death.
Thy grave awaits thee. Soon thy God-like form
Must be the food of the disgusting worm.
Nor think that earth will miss thee, for 'twill not,
Thy very name will quickly be forgot.
Earth will move on within its wonted track,
And none will miss thee, nor none will wish thee back.

### RAMBLES—No. 4.

Mr. Editor—Have you ever visited the gas-works, the lime-kiln, and their surroundings? If you have not, perhaps if we stroll along in that direction we may find something there to interest us.

We will go down Huron street, past the woolen factory, over Forest street bridge to the lime-kiln. Here we see a large pile of limestone waiting to be reduced to lime; in its present condition it is known as carbonate of lime. This kiln, if we go to the top and look down into it, we find looks like a well ten or twelve feet deep, stoned up with cobble-stones and lined with fire brick; at the bottom is a grate for fuel; the kiln being filled with limestone an intense heat is applied beneath that finds its way through the whole mass, and drives off the carbonic acid, leaving the lime to fall down and be taken out from a receptacle beneath.

Lime is used for many purposes, for purposes of masonry, for agricultural purposes, as a disenfectant, etc. It is not unfrequently the case that bricks are made of clay that contains a sprinkling of lime-pebbles, when such bricks are burned in the brick-kiln, the carbonic acid is driven off from the pebbles as in the lime-kiln, the pebbles then become lime and upon exposure to air or moisture, it will slack and break the bricks. Of course it is necessary that clay selected for the manufacture of bricks should be as free from lime as possible.

Lime enters into vegetation as it is growing, and, through food it enters into the animal organization, making bone. Of course it is necessary that the soil should contain lime in suitable quantity and condition for the supply of the plants. Lime is not only useful as a manure in itself, but it decomposes organic substances that it finds in the soil, thus putting them in a condition to be taken up by vegetation. We must not tarry too long at the lime-kiln, let us go across the way to that Plaster shed. This pile of plaster belongs to the Woolen Manufacturing Company; it is lime in another condition, it is known as sulphate of lime, Plaster of Paris and Gypsum; the term generally in use among farmers is "Plaster.', The only preparation necessary for its application to the soil is grinding. Towards spring the company will have this pile of stones ground to a powder, then it will be ready for sale, and will be purchased by farmers and sown broadcast upon their growing crops, or a little put in the hills of corn, potatoes, etc. It would take a long time to talk over the subject of lime in its various conditions, its uses, and its action upon soils and plants.

Now we will take a peep into the gas-works and see how they manufacture gas. These arches contain furnaces, as we can readily perceiye, over each furnace there are three ovens, these ovens are filled with Bituminous coal, each oven holding about one hundred and fifty pounds; the great heat supplied by the furnaces causes various substances to separate from the coal which pass up through those perpendicular pipes into the large horizontal one above the arches, then down the one at the end of the brick-work; here the gas and coal tar separate; the coal-tar passing down into a cistern, while the gas finds its way up and down that series of cooling pipes, then through the purifying boxes, through the meter, into the large gas-holder that stands in the yard, and from the holder it is distributed throughout the city.

The residuum of the coal, after the gas is extracted, is called coke, and is used in the furnaces as fuel, there generally being more than sufficient to supply the furnaces. The gas as it comes from the coal is very impure and wholly unfit for illuminating purposes, therefore it is passed through the purifying boxes; these boxes are fitted with perforated shelves, or divisions, lime is placed upon the shelves, the cover—the edge of which passes down into a rim, or jacket, filled with water to prevent the escape of gas—is shut and fastened down, the gas is then let into the box through a pipe that terminates at the bottom, it then passes through the layers of lime and out through a pipe that rises within and nearly to the top of the box, the lime retaining all the impurities and the gas passing off freed from them, provided the purifiers are all right. Accidents sometimes attend this process as well as every other, but, as a general thing our streets and houses ought not to be filled with impure gas. There is cheating done in all trades but ours, and ours may be the manufacture of gas, in small quantities.

We began our notes to day with lime, and we will end with lime. This gas-lime, as it is sometimes called when it comes from the purifiers filled with sulphur and other impurities of the gas, is of some value as a manure, but it must be used with great care, for in large doses it is as injurious to vegetation as laudanum and whiskey are to human beings.

ITINERANT.

### An Outrage on the Christian Religion.

In contravention of the Christian religion, the President of the United States has once again set his heel on the necks of the lowly. His late Message is the greatest affront to the Christian spirit of the age which has been given by any presidential manifesto since the iniquitous days of the Fugitive Slave law. With scorn and indignation, with sorrow and shame, we have read the dull, stony, and cruel argument which the Chief Magistrate of a Christian republic has pointed against a class of citizens whom he ought to exalt rather than to degrade, and whom he ought to clasp with the hand of fellowship rather than to smite with the gauntlet of scorn. This state-paper is without parallel and without excuse. It is out of harmony with the Christian era. It is three hundred centuries old. It is the product of a Pagan brain. By the side of the Roman Emperor who kept in his girdle a bodkin to pierce flies, let us place an American President who keeps on his inkstand a pen to stab negroes.

This new document from the Whited Sepulcher is filled with dead men's bones. It crushes at a stroke not merely a multitude, but a race, of victims. It rolls, like Juggernaut, over the rights of one-sixth portion of the American people. It relights the dying fires of that martyrdom which the negro race on this continent suffered for generations, and ought to suffer no more. It begins again the persecutions which all mankind lately supposed were drawing to an end. Not even Horatio Seymour, were he governor, nor Fernando Wood, were he mayor, would have written, at this late day, a message so bitter in its accusations against the most docile race in the Republic. The man who promised the black-faced millions of his fellow-countrymen that he was to be their Moses; the man who wrote to Gov. Sharkey that all negroes who could read and write ought to vote; the man who said to Major Stearns that negro suffrage ought to be promoted in Tennessee; the man who assured the black regiment that this Government was not to be for white men alone;—this man, forgetting his pledges, forgetting his duty, forgetting his origin, forgetting his Lord, and forgetting the Judgment Day, has shocked his own nation, and astonishes mankind, by putting forth, under the solemn seal of the Executive Department, an official reutterance, in the year of 1867, of the satanic slanders against the negro which disgraced the year 1856.

During the peril of the Republic, the negro was a loyalist; his master a traitor. The negro was the nation's defender; his master its assassin. The negro succored Union prisoners; his master starved them to death. Yet now, after this history, the President proposes to deliver the negro, bound hand and foot, to his master! He argues that black loyalists should have no political rights, and white rebels no political disabilities.

Such an argument as the President has uttered against the negro could fall from the lips of no man under the sun except a Southern "mean white." The only human being who has ever been able to shake our faith in the equality of mankind is the Southern "mean white." From any other President ever to be chosen out of this same class, "Good Lord, deliver us!"

How strangely the President's Message falls upon the ears of thoughtful Europeans! One President of the United States issues a proclamation emancipating the slaves; and his successor writes a message asking practically for their rendition to slavery. How the beginning of 1863 puts to shame the end of 1867! How the silent sepulcher at Springfield rebukes the babbling Executive at Washington!

Spiritual wickedness prevails in high places. What is the remedy? Spiritual purity must prevail all the more in other places. When the government is base, the people must be noble. When the state is false, the church must be faithful. The Christian conscience of this nation ought to be so sensitive that such a message from the President would sting twenty million loyalists to indignation, and cost its author his immediate impeachment. The Christian religion ought to prevail among the people to such a degree that a chief magistrate who should speak against the just rights of the weakest citizen would raise as great a tempest about his head as if he had publicly assailed the 39 Articles. A nation that quietly looks on while its ruler tramples a negro shall be one day trampled itself.

The venerable Rev. Dr. Cutler, of Brooklyn, on his death-bed, said to his friend the Rev. Dr. Tyng who sat at his bedside, "I feel like taking by the hand the meanest beggar that walks the earth, if so be I may stand his equal in the kingdom of heaven!" How the temper of the dying saint contrasts with the temper of the living President! And how, in view of the eternal bar, all human distinctions disappear! How, before Him who is no respecter of persons, both the white skin, and the black lose their difference of pride! How, judging by a true Christian test, the mind revolts at a tyrant who would use his "brief hour of authority" for setting his foot on a slave!

This nation needs to be rebaptized in the fountain of political equality. To this end, the Lord's Gospel must be more fervently proclaimed. The Christian pulpit must repreach St. Paul's sermon on the one blood of which God hath made all nations of men. Citizens who love liberty must kindle anew its altar-flames in their breasts. Christian lips must teach themselves to say, "Who is offended, and I burn not?" We want to see the civil and political rights of all American citizens established on a rock of adamant. We want to see all sections and classes brought into national harmony and unity. We want to see justice done alike to rich aud poor, high and low, white and black. We want to see the Christian religion victorious over men's pride of birth and prejudices of skin. We want to see a truer value set upon that human nature which the Lord thought worthy of redeeming at so high a price. We want to see the Gospel leveling no class down, but all classes up. We want to live under a government which fears God, and respects its citizens. We want to see an awakening church leading the sluggish state. We want to hear the echoes of thirty thousand pulpits, proclaiming with an eloquence heretofore unheard by the ears of this generation the inherent and ineradicable equality, nobility, and immortality of all mankind! O, for a baptism of fire!—*Theodore Tilton.*

### A Model Merchant.

"Business is business;" "a contract is a contract." These are sound commercial maxims, but the following incident illustrates the nature of the business Christianity which obeys the inspired injunction, "Look not every man on his own things, but every man *also* on the things of others:"

A merchant of New York, during the late war, made a contract with a merchant to supply him with a quantity of tin cans. Not long after this the price of tin rose so much that the contractor must lose money by completing the work at the price agreed upon. However, he said nothing, but went on delivering the cans. When the first bill for the pay of the cans was received, the employer called upon him and said,—

"I understand you are losing money on this job."

"Yes," replied the contractor, "but I can stand it; a contract is a contract, you know."

"How much will you lose?" asked the gentleman.

"O, no matter," was the reply, "I don't complain, and you ought not to."

"I insist on knowing."

"Well, since you desire it, I shall lose so much a hundred," naming the amount.

"Well, sir," said the noble-hearted man, "you must not lose this—it would not be right. I shall add the amount to your bill, and, as the price of material may still rise, I will advance you the money for the whole contract, which, no doubt, you can now use to advantage."

The difference thus payed, to which the contractor had no claim, amounted to five hundred dollars. That was something more than business honesty; it was Christian principle carried out in business.

### One of the Sabbath-Keeping Ponies.

We had a parishioner once whose horse knew perfectly well the distinction between Sunday and week days. Through the week if left without guidance from the reins, he invariably turned the corner of the street that led to the depot. On Sunday he as invariably passed the street without turning, and went directly to the churchyard. Rev. W. Allen gives a more striking instance of a similar discernment:

"Balaam ---- was rebuked for his iniquity; the dumb ass, speaking with man's voice, forbade the madness of the prophet." In a little village in Berkshire there lived a family the members of which were in the habit of disregarding the command of God to remember to keep holy the Sabbath day. Forgetting that God careth even for the beasts of burden, and has set apart a seventh portion of time as a day of rest for them as well as for man, they used to harness their pony in order to convey them and their friends to the nearest railway station, on the Lord's day. A new pony, however, which they purchased, from some instict which we shall not attempt to explain, but which has often been noticed to exist in dogs, was able to distinguish as accurately as its master between Sunday and the other days of the week, and probably from remembering the habits of some previous owner who was more careful to obey the commands of God, was fully resolved to enjoy that day quietly at home in his stable or paddock. When he was fastened to the gig on Sunday, and his owner or his friends had ascended the gig and wished to proceed, the pony, though obedient at other times, would plant his feet firmly on the ground, and neither blows, nor words, nor caresses could induce him to stir from the spot. All the efforts of his master proved powerless to induce him to move on the Sabbath day, and at last, as a matter of necessity, he has been left to the quiet enjoyment of his weekly day of rest.

**SHALL WE HAVE A RAILROAD?**

"The public are talking about a railroad from Ypsilanti to Tecumseh. What do you Ypsilantians say about such a project? Are you ready to co-operate with the Salineites?

OBSERVER."

We quote from our Saline correspondent. The Salineites are quite in earnest about a road. They are bound to have an outlet in some direction. So far all plans have failed. They are now on the right track—have hold of the *main* chance and there is no necessity of failure. It is only 12 or 13 miles to Tecumseh. Once allied to Tecumseh by Rail and they have a splendid market in Adrian and Toledo. It is only 10 miles to Ypsilanti. Continue the road and Ypsilanti and Detroit open up as good a market. The Salineites are not going to rest. It rests with Ypsilanti or Tecumseh to say which shall first have the Road. If we are supine, lend no sympathy, fail to consult our own interests, while lending a helping hand to our neighbors, we shall loose the reward. A road to Tecumseh first, will naturally allie the business interests of the people in that direction. The time has come in the history of our city, when we are to decide whether we will stand still, which is a synonym for retrogression, or move forward and possess the land. It is wisdom, by improvements to allie as many communities to us as practicable. A road to Tecumseh gives us a choice of markets. Such a road is sure eventually, if not speedily, to intersect with the Monroe and Holly roads at Plymouth, 14 miles, and there is no distance in the State over which a road can be built more cheaply. This connection opens up to us the northern markets. Brings lumber to our doors. Gives us Railroad connection with the Detroit and Milwaukee road, Detroit, Howell and Lansing, as well as the Saginaw road.

Ypsilanti will become a central point A vast market north will be opened to us. Lumber will come very much cheaper. The expense of building will be less and Ypsilanti will soon number her 10,000 inhabitants. This Railroad project is really the *main chance* to day. The public mind should be concentrated on it until the important work is consumated. Let us have the road to Tecumseh. Let us take Saline by the hand and say, "we are with you." If we sleep over this matter and let sister cities reap the prize, a dark future is before us. Narrowed down in commercial matters we shall go backward, property will dwindle, enterprise and capital will seek other points.

We suggest a meeting at an early day at Saline of the business men of Ypsilanti, Tecumseh, Saline and the public spirited farmers on the route. Let it partake of the character of a mass meeting, and this important enterprise be thoroughly canvassed.

Any member of either House may dissent from and protest against any act, proceeding or resolution which he may deem injurious to any person or the public, and have the reason of his dissent entered on the journal.

SEC. 15. In all elections of either House, or in joint convention, the votes shall be given *viva voce*. All votes on nominations to the Senate shall be taken by yeas and nays, and published with the journal of its proceedings.

SEC. 16. The doors of each House shall be open, unless the public welfare require secrecy. Neither House shall, without the consent of the other, adjourn for more than three days, nor to any other place than where the Legislature may then be in session.

SEC. 17. Bills may originate in either House of the Legislature; but no new bill, except by a vote of two-thirds of the members elect, shall be introduced after the first fifty days of a session shall have expired.

SEC. 18. Every bill and joint resolution passed by the Legislature, shall be presented to the Governor before it becomes a law. If he approve, he shall sign it; but if not, he shall return it with his objections, to the House in which it originated, which shall enter the objections, at large, upon its journal and reconsider it. On such reconsideration, if two-thirds of the members elected agree to pass the bill, it shall be sent with the objections to the other House, by which it shall be reconsidered. If approved by two-thirds of the members elected to that House, it shall become a law. In such case the vote of both Houses shall be determined by yeas and nays, and the names of the members voting for and against the bill shall be entered on the journals of each House respectively. If any bill be not returned by the Governor within ten days, (Sundays excepted,) after it has been presented to him, the same shall become a law in like manner as if he had signed it, unless the Legislature, by their adjournment, prevent its return; in which case it shall not become a law. The Governor may approve, sign, and file in the office of the Secretary of State, within five days after the adjournment of the Legislature, any act passed during the last five days of the session, and the same shall become a law.

SEC. 19. Every bill and joint resolution shall be read three times in each House before the final passage thereof. No bill or joint resolution shall become a law without the concurrence of a majority of all the members elected to each House. On the final passage of each bill and joint resolution, the vote shall be taken separately, by yeas and nays, and entered on the journal.

SEC. 20. No law shall embrace more than one general object, which shall be expressed in its title. No public act shall take effect or be in force until the expiration of ninety days from the end of the session at which the same is passed, unless the Legislature shall otherwise direct, by a two-thirds vote of the members elected to each House.

SEC. 21. The assent of two-thirds of the members elected to each House of the Legislature, shall be requisite to every bill appropriating the public money or property, for local or private purposes.

SEC. 22. No law shall be revised, altered or amended by reference to its title only, but the section or sections of the act altered or amended, shall be reenacted and published at length.

SEC. 23. The Legislature shall provide by law that the furnishing of fuel and stationery for the use of the State, the printing and binding the laws and journals, all blanks, papers, and printing for the executive department and State offices, and all other printing ordered by the Legislature, shall be let by contract to the lowest competent and responsible bidder or bidders, who shall give adequate and satisfactory security for the performance thereof. The Legislature shall prescribe by law the manner in which the State printing shall be executed, and the accounts rendered therefor, and shall prohibit all charges for constructive labor. It shall not rescind or alter such contract, nor release the person or persons taking the same, or his or their securities, from the performance of any of the conditions of the contract. No member of the Board of State Auditors shall be interested, directly or indirectly, in any contract with the State.

SEC. 24. The Legislature shall not establish a State paper, but shall provide for the speedy publication of all statute laws of a public nature, and of such judicial proceedings as it may deem expedient. All laws and judicial decisions shall be free for publication by any person.

SEC. 25. The Legislature may declare the cases in which any office shall be deemed vacant, and also the manner of filling the vacancy, where no provision is made for that purpose in this Constitution.

SEC. 26. The Legislature may confer upon organized townships, incorporated cities and villages, and upon the board of supervisors of the several counties, such powers of a local, legislative and administrative character as they may deem proper.

SEC. 27. The Legislature shall not authorize any city or township to pledge its credit, for the purpose of aiding in the construction of any railroad, to such an extent that the outstanding indebtedness, exclusive of interest, on account of aid to any and all railroads, shall exceed ten per cent of the assessed valuation of such city or township. No county shall be authorized to pledge its credit, or raise money by taxation for any such purposes; but counties in the Upper Peninsula may be authorized to do so, subject to the restrictions in this section as to cities and townships. The question of such aid shall be submitted to a vote of the electors of the county, city or township to be affected thereby.

SEC. 28. The Legislature may empower any city or township to raise by tax, in aid of any railroad company or companies, an amount of money not exceeding ten per centum of the assessed valuation of such city or township, but every such tax shall be first approved by a vote of the electors of such city or township: *Provided*, That the amount levied by any such tax, shall not, when added to the principal of the credits of such city or township, already pledged for like aid then outstanding, exceed ten per centum of the assessed valuation aforesaid.

SEC. 29. The Legislature shall not authorize, by private or special law, the sale or conveyance of any real estate belonging to any person, nor vacate nor alter any road laid out by commissioners of highways, or any street or public ground in any city or village, or in any recorded town plat.

SEC. 30. The Legislature shall not grant or authorize extra compensation to any public officer, agent or contractor, after the service has been rendered or the contract entered into.

SEC. 31. No money shall be appropriated or drawn from the treasury for the benefit of any religious sect or society, theological or religious seminary, or schools under denominational control, nor shall property belonging to the State be appropriated for any such purposes. Each House of the Legislature shall provide for religious exercises at the opening of its daily sessions.

SEC. 32. The Legislature shall not authorize any lottery or permit the sale of lottery tickets; nor audit or allow any private claim or account; nor pass special acts extending the time for the collection of taxes.

SEC. 33. The style of the laws shall be, "The People of the State of Michigan enact."

PREMIUM SALE

—OF—

"EMPRESS MODELS."

DETROIT.

OVER 5000 SOLD THE FIRST WEEK!

$50,000 IN PREMIUMS TO BE

Awarded to Purchasers.

A Premium to every Purchaser.

The undersigned, in order to sell the greatest amount of goods in the shortest space of time, have determined to adopt the following plan:

Each purchaser of the "Empress Model," upon paying two dollars therefor, will have a certificate issued to him, receipting for the money, and entitling him to one of the premiums mentioned below.

The "Empress Model," is a new and reliable invention for cutting ladies and children's garments. It is the most perfect and reliable thing of its kind ever introduced, is easily understood, and is warranted to produce a perfect fitting garment for any size or shape. Full and complete printed directions accompany each Model. Of its merits, the Detroit *Free Press* speaks editorially as follows.

"A useful invention, which consists of a chart by which ladies and children's garment can be cut to fit any form with mathematical accuracy. It is easily comprehended, and can be bought into practical use in every family. It has been throughly tested and found to work admirably in every instance. The Models are manufactured in this city by the Empress Model Company, and not withstanding the fact that it is comparatively a new thing, orders have already been received for several thousands."

The retail price is $2,00, and it has never been sold for less, so that the purchaser under the premium arrangement will have the advantage of receiving the value of his money to begin with, together with one of the premiums to be awarded to purchasers.

ALLEN'S LUNG BALSAM,

THE REMEDY FOR CURING

Consumption, Coughs, Bronchitis, Asthma, Croup, Diseases of the Throat, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs.

This BALSAM is introduced to the suffering public after its merits for the positive cure of such diseases have been fully tested. The formula from which it is prepared, is referred to by the leading medical journals as being equal to any prescription that can be made up for such diseases by the medical faculty. The BALSAM is, consequently, recommended by physicians who have become acquainted with its great success.

As an Expectorant it has no Equal

It is composed of the active principles of Roots and Plants, which are chemically extracted, and to retain all their medicinal qualities.

MINISTERS AND PUBLIC SPEAKERS,

Who are so often afflicted with Throat Diseases, will find a sure remedy in this BALSAM. Lozengers and wafers sometimes give relief, but this BALSAM, taken a few times, will ensure a permanent cure.

WILL THE AFFLICTED CLERGYMAN PLEASE TEST ITS MERITS?

Testimonials of Physicians.

Dr. Nathaniel Harris, for many years a resident of Middlebury, Vermont, recommends the BALSAM as being superior to all other remedies for Bronchitis. He says:

"I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the Throat, Bronchial Tubes, and the Lungs."

Dr. Lloyd, of Ohio, surgeon in the army during the war, from exposure contracted consumption. He says:

"I have no hesitancy in stating that it was by the use of your LUNG BALSAM that I am now alive and enjoying health."

Dr. Fletcher, of Missouri, says:

"I recommend your BALSAM in preference to any other medicine for Coughs, and it gives satisfaction."

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know very many valuable lives have been saved by being persuaded to give it a trial.

DON'T DESPAIR because all other remedies have failed, but try this remedy and you will not be deceived.

The proprietors of this valuable BALSAM take pleasure in calling to it the attention of all medicine dealers, desiring that they procure a supply of it, and recommend it to their afflicted patrons and friends. It will stand the test for merits, as has the celebrated

Perry Davis' Pain Killer,

Which has been introduced to all parts of the inhabited world, and is every-where appreciated and sought after.

ALLEN'S LUNG BALSAM

Is the remedy to cure all Lung and Throat difficulties. It should be thoroughly tested before using any other Balsam.

IT WILL CURE WHEN ALL OTHERS FAIL.

**Which Seam Does RipEasiest,—**

*The Willcox and Gibbs!—Or the Lock Stitch!*

While it is universally admitted that the Wilcox & Gibbs machine is the simplest, and the least liable to get out of order; that it runs the easiest, silentest, and fastest; that it requires the least skill to use it; that its needle, hemmer and feller are a perfect marvel; and the machine itself the *best* beyond comparison; it is, nevertheless, asserted, by parties interested in "double-thread" machines, that the 'Willcox & Gibbs' stitch is not reliable;" that "the seam will rip;" that "the work will come to pieces before the garment is worn out," &c., &c. How these charges tally with the *verdict* of the jury, at the "Grand Trial at Island Park,"—the following extract from the "Report" of that trial will show:—

"Again each party claims that his stitch is the least liable to rip by the ordinary strain upon the seam of a garment in use. The test requires a row of parallel stitching to be made by each machine, lengthwise, across a narrow strip of two thicknesses of muslin; and this strip is then cut across at every half an inch, making it into smaller strips, each, as long as the width of the original piece. Each judge takes one of these small strips, and opening the folds on the "lock-stitch" side, pulls on the ends in opposite directions and the lock-stitch seam rips out. The folds being thus opened to the Willcox & Gibbs seam, he continues pulling, but this seam refuses to rip. He pulls stronger, but this only tightens the stitch; the material gives way, but the seam holds fast." And the jury, in accordance with the facts, render the following verdict:—

"Its seam," (the Willcox & Gibbs) "has the peculiar advantage of being readily taken out, when it is desirable; while it is less liable to rip, in use or wear, than the lock-stitch."

RADICAL RESTORATION.—Its good effects are permanent. It not only restores the color of the hair, but the quantity and natural glossiness. This is said by every one using Mrs. S. A. Allen's Improved (*new style*) Hair Restorer or Dressing, (*in one bottle*) Every Druggist sells it. Price $1

Y. I sold that machine when I left Danville, and now want another. I have due-bills for two higher priced machines, *but yours gave such perfect satisfaction that my wife will have no other kind.* I want a machine at once."—[Letter to Wilcox & Gibbs S. M. TROUBLE WITH TURKEY.—A serious embroglio in our relations with the Divan has arisen, as follows; Sarkis Minasian, who has for many years acted as the resident agent in Turkey for the sale of Dr. J. C. Ayer & Co.'s medicines, driven by the increase of his business to a necessity for more room, built his warehouse in Constantinople several stories higher, after having obtained the necessary permit from the authorities. The Imans of a neighboring mosque, which overlooked the premises demanded a large present in money, which was refused. They then applied to the Grand Vizier, for the enforcement of an obsolete law, which has been disregarded for two hundred years, requiring him to take down the building to eighteen feet, which was granted, and they commenced the work of demolition. Minasian then applied to the American Minister, who notified the Sublime Porte that American property could not be thus trifled with, and that the demolition must cease. Then commenced the usual course of Mussulman prevarication and promises, but no real redress. Finally Minister Morris informed them that if their depredations continued, he should order the U. S. ships of war to enter the Bosphorus and Messrs Ayers' medical warehouse would not be alone roofless. A stroke of his pen could have laid the whole city under the sweep of American cannon, backed by men who are not schooled in the lessons of fear. This brought them to their senses and speedy redress. Minasian has now arrived in this country, to present the case to our State Department for indemnity. At length it is something to say among the people of the earth—"I am an American citizen!"—*Columbia Republican.* Jan.

**SLEEPLESS NIGHTS.**

As a remedy to soothe all nervous excitement, and in its truest sense, a NERVINE, their is, perhaps, no medicine extant which is received with so much favor as Roback's Stomach Bitters; a wine glass full on going to bed is all that is required to produce sound and healthful sleep. C. C. Kingsbury, agent Ypsilanti.

**AYER'S CHERRY PECTORAL**

IS a soothing expectorant, prepared to meee the urgent need of a safe and reliable curt for diseases of the throat and lungs. A trial of many years has established the fact, that it is more efficacious in pulmonary affections, than any other remedy, Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable neccessity. In Great Britain, France, and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies. in hospitals and other public institutions, where it is regarded by the attending physcians as the most speedy and agreeble remedy that can be employed Scarcely any neighborhood can be found where well known cases of diseased lungs, which had baffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing properties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administrated judiciously.

This health-restorer accomplishes even more by prevention than cure If taken in season, it heals all irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them, Hence no family should be without it. Influenza, Croup, Hoarseness, affections of the breathing organs give way before this pre-emient combination of medcal virtues-

**To Owners of Horses.**

THOUSANDS OF HORSES DIE YEARLY from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable, ready for use. It is warranted superior to anything else for the cure of Cuts, Wind Galls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, &c This Liniment is no new remedy. It has been used and approved of for 20 years by the first horseman in the country. Given to an over-driven horse, it acts like magic. Orders are constantly received from the *racing stables of England* for it. The celebrated Hiram Woodruff, of trotting fame, used it for years, and said it was far superior to any other he has tried. Recollect, Dr. Tobias' Venetian Horse Liniment is put up in pint bottles. Take no other. Sold by druggists and Saddlers. Depot, 56 Courtlandt Street, New York. 290-4w.

**PROOFS OF THE SUPERIORITY OF The American WALTHAM WATCHES**

This country has reason to be proud of this splendid specimen of American operative genius and enter rise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements—beside the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of trashy foreign articles miscalled timekeepers, by furnishing so excellent and economical a substitute."—*N. Y. Times,*

"We have had one of the works of this Company in a case for some considerable time; and, comparing them with former first-class works of different manufacture possessed by us, they have established in our optnion their superiority over any ever introduced for correctness as time pieces.—*The World.*

"We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltnam Company are certainly, so far as strength, durability, and excellence as timekeepers are concerned, as good as anything produced by French or Swiss manufacturers." —*N. Y. Herald.*

"The beauty, the precision, the greator cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference which will not be deceived."—*Harpers' Weekly.*

**NOT A BEVERAGE.**

Unlike most of the bitters of the present day, Dr. Roback's are not intended as a pleasant stimulating whisky beverage, but are perfectly medicinal, containing only sufficient pure bourbon whisky to hold in solution the medicinal extractive matter from which they are composed. **Keep Your Blood Pure.**

Or, Whites, which follow local debility and constitutional weakness, can be effectually cured by the use of Roback's Stomach Bitters. SPECIAL NOTICE.

ADDRESS TO THE NERVOUS AND DEbilitated whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired; Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky, or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling upon this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have restless nights Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse venereal diseases badly cured, and sexuel excesses, are all capabable of producting a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they can not succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men from badly-cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing.

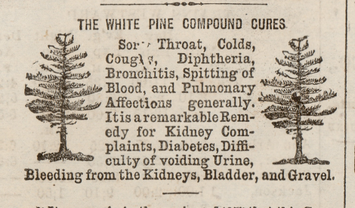
DR. J. W. POLAND'S

# WHITE PINE COMPOUND.

THE WHITE PINE COMPOUND CURES



Sore Throat, Colds, Coughs, Diphtheria, Bronchitis, Spitting of Blood, and Pulmonary Affections generally. It is a remarkable Remedy for Kidney Complaints, Diabetes, Difficulty of voiding Urine, Bleeding from the Kidneys, Bladder, and Gravel.

"It was early in the spring of 1865 that this Compound was originated. A member of my family was afflicted with an irritation of the throat, attended with a disagreeable cough. I had for some months previous thought that a preparation, having for its basis the inside bark of white pine, might be so compounded as to be very useful in the case of the throat and lungs. To test the value of it in the case alluded to, I compounded a small quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided, and a speedy cure was effected. Soon after this I sent some to a lady in Londonderry, N. H., who had been suffering for some weeks from a bad cough, occasioned by a sudden cold, and had raised mucus streaked with blood. She soon found relief, and sent for more. She took about ten ounces of it, and got well. J. B. Clark, Esq., editor of the Manchester *Daily Mirror*, made a trial of the same preparation in the case of a severe cold, and was cured immediately. He was so highly pleased with the results, and so confident of success attending its sales if placed before the public, that he finally persuaded me to give it a name and send it abroad to benefit the suffering."

### Testimonials.

*A very large number of important testimonials have already been received from Physicians, Clergymen, Apothecaries, and, indeed, from all classes in society, speaking in the most flattering terms of the White Pine Compound.*

*Dr. NICHOLS, of Northfield, Vt., says:*

*"I find the White Pine Compound to be very efficacious not only in coughs and other pulmonic affections but also in affections of the kidneys, debility of the stomach, and other kindred organs."*

*Rev. J. K. CHASE, of Rumney, N. H., writes:*

*"I have for years regarded your White Pine Compound as an invaluable remedy. I can truly say that I regard it as even more efficacious and valuable than ever. I have just taken the Compound for a cold, and it works charmingly."*

From JAMES J. HOYT.

*BRADFORD, N. H., September, 1860.*

*DR. POLAND: In the Fall of 1857 I took a very violent cold, which brought on a very severe cough, pain in the side and lungs, and raising blood. I was also very badly afflicted with that troublesome disease—the Kidney Complaint. For the three years past I have been very much troubled with my throat and lungs, choking up and raising an immense sight, with a bad cough after raising blood. I felt that my time here must be short unless I soon got relief. This Spring, I was induced to try your White Pine Compound, though my faith in it was small. But to my astonishment, before I had taken two bottles my cough was better, the kidney trouble also, and I could rest nights without choking up and raising so much. I have taken nearly three bottles, and am feeling like a well man.*

*I would add that my father's family is inclined to consumption, my father, mother, and two sisters having died of it.*

*The White Pine Compound, advertised at length in our columns, is not only as to its name inviting, but is a highly approved medicine. Dr. J. W. Poland, the inventor, has the confidence of the many who know him, a confidence which he enjoyed while laboring usefully many years as a Baptist minister. His experience as a sufferer led him to make experiments which issued in his medical discovery.*—Boston Watchman and Reflector.

*A VALUABLE MEDICINE.—Dr. Poland's White Pine Compound, advertised in our columns, is a successful attempt to combine and apply the medicinal virtues of the White Pine bark. It has been thoroughly tested by people in this city and vicinity, and the proprietor has testimonials to its value from persons well known to our citizens. We recommend its trial in all those cases of disease to which it is adapted. It is for sale by all our druggists.*—New York Independent.

## Vegetable Sicilian Hair Renewer

*Has stood the test of seven years trial by the public; and no preparation for the hair yet discovered will produce the same beneficial results. It is a new scientific discovery, combining the most powerful and restorative agents in the* VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and* falling out of the hair; *and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the* cheapest *preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

*It is recommended and used by the* First Medical Authority.

*The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and in order to induce the trade and the public to purchase their compounds, they have resorted to falsehoods, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them! Purchase the original: it has never been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.*

PURELY VEGETABLE,

Contains no Minerals or other Deleterious Drugs.

THE CURATIVE BALSAM is Warranted, if used according to Directions, to cure or relieve in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.

Madame ZADOC PORTER'S BALSAM is a purely Vegetable Expectorant, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.

Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body.

It loosens the phlegm, induces free spitting, and will be found VERY AGREEABLE TO THE TASTE. It is not a violent remedy, but emollient, warming, searching and effective; and can be taken by the oldest person or youngest child.

If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it within the reach of every one, that they may always keep it convenient for use. The timely use of a 25 cent bottle will often prove it to be worth a hundred times its cost.

The 75 cent bottle is more profitable to the consumer, as it contains four times the quantity contained in the small bottle.

Sold by all Druggists.

## What is it? What is it?

Why the Itch of course? It is a restless little animal or parasite imbedded underneath the Cuticle and which no amount of "Blood Purifiers" will remove. Use *Webbs Magic Itch Ointment*, which *kills* the animal *at once*, and releases you from the torments of scratching.
